

Response to Office Action  
Docket No. 015.0405.US.CON

**Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

- 1           1.       (currently amended): A system for executing user navigational  
2 events triggered through geolocational data, comprising:  
3           a cartridge ~~storing data~~, comprising:  
4               zone of influence data ~~defining to define~~ one or more zones of  
5 influence and wherein each zone of influence is described by a plurality of stored  
6 geolocational data;  
7           user event data ~~defining to define~~ one or more user events; and  
8           event data ~~associating to associate~~ one or more of the user events  
9 with each zone of influence, wherein each user event specifies a trigger condition  
10 based on the stored geolocational data for the associated zone of influence; and  
11           a ~~user device executing wireless computing device to execute the~~  
12 cartridge, ~~the wireless computing device~~, comprising:  
13               a locational device ~~self-identifying to self-identify~~ a location of the  
14 ~~[[user]] wireless computing device~~ based on further geolocational data; and  
15               a processor ~~locally triggering to trigger~~ at least one user event on  
16 the cartridge when the further geolocational data substantially correlates to the  
17 stored geolocational data for the zone of influence associated with the trigger  
18 condition of the at least one user event.
- 1           2.       (currently amended): A system according to Claim 1, wherein the  
2 cartridge further stores data, comprising:  
3           timed event data specified by a start time and a duration and associated  
4 with one or more of the user events; and  
5           the ~~[[user]] wireless computing device~~ further comprising:

Response to Office Action  
Docket No. 015.0405.US.CON

6 a timer measuring an elapsed time from the start time of each  
7 timed event, wherein the trigger triggers at least one user event when the elapsed  
8 time substantially equals the duration of one such timed event.

1 3. (previously presented): A system according to Claim 1, wherein  
2 the user event specifies one or more independent trigger conditions and associates  
3 one or more of the user events with each independent trigger condition, and the  
4 trigger triggers at least one user event upon satisfaction of at least one  
5 independent trigger condition.

1 4. (previously presented): A system according to Claim 1, wherein  
2 the zone of influence data defines each zone of influence as discrete, adjoining,  
3 overlapping, and nested relative to at least one other zone of influence.

1 5. (previously presented): A system according to Claim 1, wherein  
2 the zone of influence data defines at least one zone of influence as inheriting at  
3 least one user event from one or more other of the zones of influence.

1 6. (withdrawn): A method for executing user navigational events  
2 triggered through geolocational data, comprising:  
3 storing data, comprising:  
4 defining one or more zones of influence and wherein each zone of  
5 influence is described by a plurality of stored geolocational data;  
6 defining one or more user events; and  
7 associating one or more of the user events with each zone of  
8 influence, wherein each user event specifies a trigger condition based on the  
9 stored geolocational data for the associated zone of influence; and  
10 executing the cartridge, comprising:  
11 self-identifying a location of the user device based on further  
12 geolocational data; and  
13 locally triggering at least one user event on the cartridge when the  
14 further geolocational data substantially correlates to the stored geolocational data

Response to Office Action  
Docket No. 015.0405.US.CON

15 for the zone of influence associated with the trigger condition of the at least one  
16 user event.

1 7. (withdrawn): A method according to Claim 6, further comprising:  
2 specifying one or more timed events by a start time and a duration; and  
3 associating the one or more timed events with one or more of the user  
4 events; and  
5 measuring an elapsed time from the start time of each timed event; and  
6 triggering at least one user event when the elapsed time substantially  
7 equals the duration of one such timed event.

1 8. (withdrawn): A method according to Claim 6, further comprising:  
2 specifying one or more independent trigger conditions;  
3 associating one or more of the user events with each independent trigger  
4 condition; and  
5 triggering at least one user event upon satisfaction of at least one  
6 independent trigger condition.

1 9. (withdrawn): A method according to Claim 6, further comprising:  
2 defining each zone of influence as discrete, adjoining, overlapping, and  
3 nested relative to at least one other zone of influence.

1 10. (withdrawn): A method according to Claim 6, further comprising:  
2 defining at least one zone of influence as inheriting at least one user events  
3 from one or more other of the zones of influence.

1 11. (withdrawn): A computer-readable storage medium holding code  
2 for performing the method according to Claim 6.

1 12. (withdrawn): A system for building a user-customized cartridge for  
2 use with a wireless computing device, comprising:  
3 a toolkit to build a template of a cartridge based on user instructions,  
4 comprising:

Response to Office Action  
Docket No. 015.0405.US.CON

5 a zone interface to define one or more zones of influence that are  
6 each described by a plurality of stored data;  
7 an event interface to define a series of events triggered by at least  
8 one of temporal, locational and independent trigger conditions and associating  
9 each event with one such zone of influence; and  
10 a compiler to compile the cartridge template into a cartridge script  
11 configured to be downloaded and autonomously executed on a wireless  
12 computing device.

1 13. (withdrawn): A system according to Claim 12, further comprising:  
2 a server to download the cartridge script onto a wireless computing device.

1 14. (withdrawn): A system according to Claim 12, wherein at least one  
2 zone of influence can be defined to inherit at least one event from one or more  
3 other zone of influence.

1 15. (withdrawn): A system according to Claim 12, wherein one or  
2 more of the zones of influence specify at least one of a starting location and an  
3 ending location.

1 16. (withdrawn): A system according to Claim 12, wherein the trigger  
2 conditions are selected from the group comprising movement, direction, speed,  
3 acceleration, tactile effects, sound effects, and visual effects.

1 17. (withdrawn): A system according to Claim 12, wherein the  
2 cartridge script is configured to be executed on a plurality of collaborating  
3 wireless gaming devices.

1 18. (withdrawn): A system according to Claim 12, wherein the  
2 cartridge script is configured to manipulate an item between a plurality of  
3 collaborating wireless gaming devices.

1 19. (withdrawn): A method for building a user-customized cartridge  
2 for use with a wireless computing device, comprising:

Response to Office Action  
Docket No. 015.0405.US.CON

3 building a template of a cartridge based on user instructions, comprising:  
4 defining one or more zones of influence that are each described by  
5 a plurality of stored geolocational data;  
6 defining a series of events triggered by at least one of temporal,  
7 locational and independent trigger conditions and associating each event with one  
8 such zone of influence; and  
9 compiling the cartridge template into a cartridge script configured to be  
10 downloaded and autonomously executed on a wireless computing device.

1 20. (withdrawn): A method according to Claim 19, further comprising:  
2 downloading the cartridge script onto a wireless computing device.

1 21. (withdrawn): A method according to Claim 19, further comprising:  
2 defining at least one zone of influence to inherit at least one event from  
3 one or more other zone of influence.

1 22. (withdrawn): A method according to Claim 19, wherein one or  
2 more of the zones of influence specify at least one of a starting location and an  
3 ending location.

1 23. (withdrawn): A method according to Claim 19, wherein the trigger  
2 conditions are selected from the group comprising movement, direction, speed,  
3 acceleration, tactile effects, sound effects, and visual effects.

1 24. (withdrawn): A method according to Claim 19, wherein the  
2 cartridge script is configured to be executed on a plurality of collaborating  
3 wireless gaming devices.

1 25. (withdrawn): A method according to Claim 19, wherein the  
2 cartridge script is configured to manipulate an item between a plurality of  
3 collaborating wireless gaming devices.

1 26. (withdrawn): A computer-readable storage medium holding code  
2 for performing the method according to Claim 19.
